Overview

Your automatic entrance is just an entrance, right? That is, until it goes wrong! It helps to keep your people and business safe and secure.

It's your first line of defence against our ever changing climate. It's the first impression that you give to your customers. It is an essential tool for protecting your assets. Your automatic entrance isn't just an entrance, it's an investment worth protecting.

As founder members of our industry body, the Automatic Door Suppliers Association (ADSA), Record is the largest manufacturer, installer, maintainer and service provider of automated pedestrian entrances and aluminium shopfronts in the UK. We are the trusted partner for our customers, from a single door/security entrance to multi-site estates.

Company Founded

1953

You can rely on Record to supply the right automatic door/entrance solution, on time and most importantly, on budget whilst applying to the European Standard for quality, safety and security.

Compliance and Safety

The BS EN 16005:2012 in conjunction with BS 7036-0:2014 Automatic Door Standards states that to protect the safety of employees and the public, it is the building occupier's responsibility to ensure that equipment or machinery is routinely maintained in line with manufacturers recommendations.

The BS 17352:2022 Power Operated Pedestrian Entrance Standard requires all speed gates and turnstiles to meet specific requirements and test methods.

Our design, installations, maintenance, and responsive services are designed to help keep you compliant with the latest Automatic Door and Power Operated Pedestrian Entrance Standards.

Regular training is essential to ensure our team remain current and up to date with the latest standards. All Record engineers are trained in-house and fully qualified to the latest BS EN 16005/BS 7036 Automatic Door Standards to ensure the highest quality of service delivery for our customers.

All our employees are required to carry out job specific training annually.

“Doors and security entrances are machines which, like cars, are safer, last longer and give more reliable service if they are looked after properly”

Asset Management

As your automatic door and security entrance expert, we understand that every customer has different requirements.

Our range of service and maintenance contracts have been designed to meet individual customer needs and offers peace of mind that your doors and security entrances will operate safely, whilst complying with the latest standards.

Planned Preventative Maintenance (PPM)

Our schedule maintenance programme ensures that your door is fully maintained in line with the latest Automatic Door and Power Operated Pedestrian Entrance Standards. We are able to maintain and repair all types of commercial doors and security entrances.

Breakdown and Callout Support

When something is not quite right, you need peace of mind that help is on hand. With a range of options to suit every budget, you can be assured that help is available 24-hours a day, seven days a week.

You can opt to include this in your annual contract fee or pay for each attendance when required either way, you will always be assured of our expert support.

Replacement Parts

As with all electro/mechanical items, parts will wear over time and will require replacing. Our engineers carry a wide array of van stock, supporting a large range of manufacturer's automatic doors, to ensure a first time fix wherever possible.

For larger or bespoke items, you can rely on our UK based manufacturing and network of local hubs to supply the part and return your door or security entrance to working order, in a timely manner.

Response Times

Our 24/7 maintenance and servicing team understanding maintaining 'business as usual' is a priority for our customers.

We operate a UK based, in-house call-centre that is manned 24 hours a day, 365 days per year, so you can always speak to someone from Record, no matter what the time is.

For critical emergencies and security issues we endeavour to reach site within four hours. We will respond to all other door breakdowns within 24 hours and for general attendance requests within three working days.

Asset and Safety Inspection Assessment

Following any works, we will send you an electronic report to your nominated email address, detailing the works we have completed.

We will also provide you with details from our Asset and Safety Inspection assessment. Using this information, we can help you to manage lifecycle costs and the budgeting and planning of essential upgrades and replacements.

Focus On First Fix

Rolling Three Year Average First Time Fix Rate – 80%

If your door or security entrance stops working properly, you can rely on our UK based manufacturing team, engineer's van stock, and our network of local hubs to source the right part and quickly return your door to working order.

Our knowledgeable technical and parts team can help source original manufacturer and difficult-to-source parts, troubleshoot complex faults, and provide technical assistance to our team in the field.

Our engineers provide 24/7 support to our customers across all regions of mainland UK and are within easy reach of our network of support hubs. This, combined with the extensive range of common parts carried out on our engineers vans, means we achieve high first-visit fix rates and return doors and security entrances to operation quickly and efficiently.

We work closely with our customers to understand their needs, adjusting our stocked parts to suit a variety of estates. This close understanding of your business requirements ensures we can tailor our services to provide the support you need to secure your building.

Service Levels - For All Your Needs

Whether you have one door/security entrance or multiple sites, our range of contracts are structured to offer you the level of service and support to suit your requirements.

Support Local To You

Based across the UK, our team of qualified engineers are located to the customers that they look after. Supported by our local hub network, we pride ourselves on the quality of our directly employed engineers and the knowledge they possess, not only of our own, but other manufacturers doors too.

Our experienced customer service, planning and commercial teams work closely with our engineers to provide the very best experience, service and support to customers 24-7, 365 days a year.

We survey customers after the work we do, and we are proud to have achieved an average 95% recommendation rate last year.

But don't just take our word for it, put us to the test! We would love to show you why we are the best partner to look after your doors.

See our Let's Talk section for contact details.
