

Offices 95 Queen Victoria Street

Case Study

At this entrance to the serviced offices at 95 Queen Victoria Street, London, **record uk** installed a C90 underground sliding door operator and revolving door. The all-glass facade and all-glass revolving door allows the ambient light from the inside reception area to create a modern yet inviting internal space. **The record C90** underground operator is suitable for heavier and larger doors weighing up to 600kg.
