

P & G Brooklands

Brief

To replace the main entrance door at Procter and Gamble's UK Office in Weybridge, which needed updating due to its age.

Solution

Protek Secure Systems installed 2 x Record Fine Frame Door Systems with STA 20 headers to provide quick and easy access for everyone entering the office complex.

Result

The slimline profile of the Record Fine Frame Door System in an anodised finish seamlessly integrates into the building's architectural design, offering a highly functional, and visually appealing entrance.

" Very smooth process from start to finish. The fine frame systems fitted perfectly and look the part.

Extremely pleased with the outcome. Record is our GO TO supplier for automatic door systems"
