Plans To Close The Gap

To close the gender pay gap, we are dedicated to fostering an inclusive environment and ensuring equitable pay for all employees. We will conduct regular, thorough pay reviews to confirm that all roles offer comparable salaries, regardless of gender.

Additionally, we aim to recruit more women into roles traditionally dominated by men, including expanding our team of female auto-door engineers. We are also focused on actively providing development and promotion pathways for talented women within the company.

By building a balanced workforce and creating clear opportunities for career advancement, we are committed to closing the gender pay gap and cultivating a fair and supportive workplace for everyone.
